

Scalable, Flexible and Effective Content Delivery

Synamedia's Edge Media Streamer is a next-generation, pure software solution enabling service providers and network operators to efficiently deliver streamed content at the highest throughput and lowest latency, while minimising network and origin server load. The solution aggregates machines in clusters that can easily be extended or reduced to enable massive scalability. Featuring fully centralised management, configuration and monitoring capabilities, Edge Media Streamer is equipped with over 100 dashboards as well as metrics, based on billions of logs per day, to enable real-time analytics. Edge Media Streamer also offers you the utmost in operational flexibility – from self-operation to a fully managed offering.

Key Functionalities

Minimum third-party dependence, maximum performance and scalability

- Easily scales CDN up or down at massive proportions
- Serves millions of simultaneous users thanks to tremendous edge throughput capacities
- Implements advanced caching and routing strategies to optimise performance and reduce latency
- Embeds a CDN selection feature for load balancing, traffic offload and traffic optimisation

Easy operation, rich monitoring and analytics

- Facilitates operation and management tasks that are centralised through the Edge Director
- Offers centralised monitoring, reporting and analytics
- Aggregates terabytes of logs via data compression, and responds immediately to complex queries
- Offers over 100 pre-configured dashboards and metrics across all domains
- Provides multi-tenancy portal for native support of wholesale models and CDN monetisation

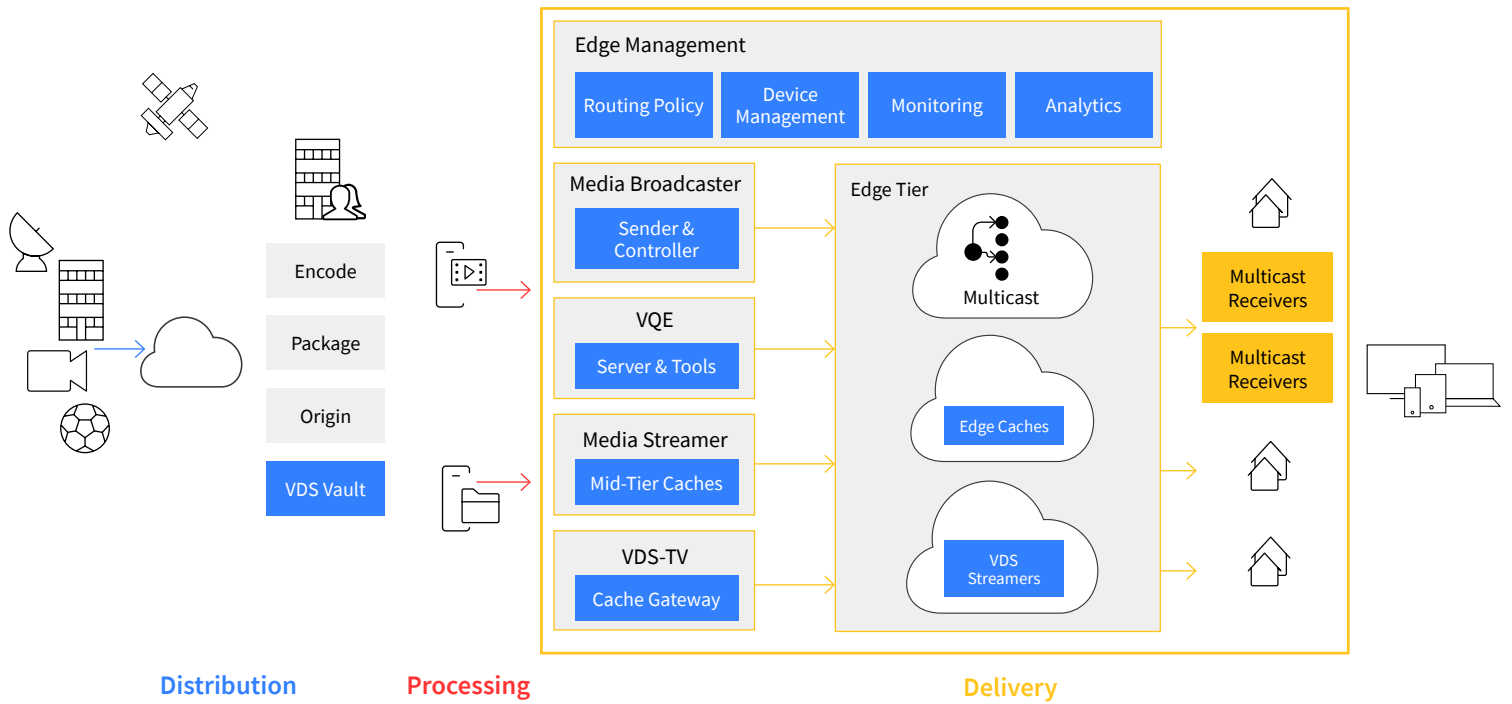

Extensive service offer, flexible operation model

- Brings together CDN design, installation, configuration, and commissioning services
- Deploys either by self-operated or fully managed model
- Maximises offering value through professional training

Technical Advantages

- Optimised video streaming design
- Support of MPEG-DASH, HLS, HSS, HDS
- Content-, popularity-, device-, and location-aware caching and routing strategies
- Embedded CDN selection feature to control cost and quality of video experience
- Native support of wholesale models to enable CDN monetisation
- Compatibility with any origin server
- Pre-integration with Synamedia's Origin Server, cloud DVR, and headend watermarking solutions

Product Specifications

Specifications	
Content Types and Formats	Delivery of any type of content and data over HTTP/HTTPS, but especially optimised for: <ul style="list-style-type: none"> • Apple HTTP Live Stream (HLS) • MPEG Dynamic Adaptive Streaming over HTTP (DASH ISO-BMFF) • Microsoft HTTP Smooth Streaming (HSS) • Adobe HTTP Dynamic Streaming (HDS)
Content Security	<ul style="list-style-type: none"> • URL signing/tokenization • HTTPS/SSL support • DNSSEC support • SSL key vault to secure API, tokenization, SSL, and DNSSEC credentials
Configuration, Management and Monitoring	Centralised configuration, management and monitoring via Edge Director system to enable: <ul style="list-style-type: none"> • Configuration of caches and creation of delivery services and cache groups • Monitoring of traffic statistics • Collection of logs • Generation of dashboards and metrics
Analytics	<ul style="list-style-type: none"> • Custom dashboards • More than 100 pre-configured dashboards and metrics in all domains, including: <ul style="list-style-type: none"> • CDN health • cache-hit ratio • most requested servers • viewing usage • QoE
Request Routing	<ul style="list-style-type: none"> • Routing strategies based on advanced rules taking into account various criteria, including: <ul style="list-style-type: none"> • network topology • cache loads • traffic data • content type and popularity • location • Embedded CDN selection feature allowing load balancing, traffic offload and traffic optimisation according to predefined business rules based on system metrics
Compatibility and Pre-integrations	<ul style="list-style-type: none"> • Compatible with any origin server • Pre-integrated with: <ul style="list-style-type: none"> • Synamedia's vDCM Origin Server • Synamedia's cloud DVR • Synamedia's headend forensic watermarking

Platform Support and Compatibility

Content Delivery Engine Chassis Specifications

Physical and Power	
Size	1U form factor: 1.69 x 17.11 x 27.83 in, 4.29 x 43.46 x 70.7 cm 2U form factor: 3.44 x 26.75 x 17.54 in - 8.73 x 67.94 x 44.54 cm
Weight	1U form factor, 35.86 lb/16.78 kg 2U form factor 61 lb./ 27.7 kg
Power Supply	AC Input 100-240 VAC
Consumption	800W (power supply)
Environmental	
Operating Temperature	50-95°F (10-35°C)
Storage Temperature	-40-140°F (-40-60°C)
Cooling	Smart array controller and seven fans
Operating Humidity	8-90% (non-condensing)
Operating Altitude	0-3,050 m (0-10,000 ft)
Regulatory Compliance	
Compliance	CE Markings per directives 2004/108/EC and 2006/95/EC
Safety	UL 60950-1, 2nd Edition, 2014-10-14 (Information Technology Equipment -Safety -Part 1: General Requirements) CAN/CSA C22.2 No. 60950-1-07, 2nd Edition, 2014-10 (Information Technology Equipment -Safety -Part 1: General Requirements)
EMC Compliance	EN 55032:2015/AC:2016 EN 61000-3-2:2014 EN 61000-3-3:2013 EN 55024:2010 +A1:2015 EN 61000-4-2:2009 EN 61000-4-3:2006 +A1:2008 +A2:2010 EN 61000-4-4:2012 EN 61000-4-5:2014 EN 61000-4-6:2014 EN 61000-4-8:2010 EN 61000-4-11:2004

Services & Support

Synamedia provides a broad portfolio of services and support to increase your network's business value and return on investment. We take a customer-centric approach, aligning our level of support to your technological requirements and network complexity. That way, you can successfully operate our products and solutions to ensure that you achieve optimal performance throughout your network's life cycle.

About Synamedia Video Network Solutions

Synamedia's video network solutions enable media, web and pay TV providers to deliver pristine-quality broadcast and broadband video securely over any network to any screen. Anchored by the industry's most comprehensive processing platform and built with high-quality standards, our solutions ensure outstanding performance and reliability for over 1,000 customers worldwide. Synamedia's solution portfolio covers the entire video network chain – from distribution, through processing, to delivery – enabling you to offer outstanding value-added and personalised experiences while saving costs.
